

SHARADEE JAYARATHNA

Computer Science Undergraduate

jayarathnasharadee@gmail.com | +94 74 311 3637 | Colombo, Sri Lanka

[Sharadee jayarathna](#) | [Sharadee Jayarathna](#) | [Portfolio](#)

PROFILE SUMMARY

Computer Science undergraduate with hands-on experience in frontend and backend development. Skilled in Java, React, JavaScript, Spring Boot, and API integration. Strong problem solver, quick learner, and passionate about building scalable software.

EDUCATION

BSc(Hons) Computer Science

University of Westminster | Informatic Institute of Technology

2024 - Present

1st year (2024)

Mathematics for Computing	- 75
Computer Systems Fundamentals	- 70
Software Development 1	- 70
Software Development 2	- 65
Web Design and Development	- 95

2nd year (2024-2025)

Software Development Group Project	- 85
Advanced Client Side Web Development	- 89
Object Oriented Programming	- 73
Database Systems	- 70
Client-Server Architecture	- 73
Server Side Web Development	- 71

GCE A/L

Ferguson High School
Achieved C,S,S in Biology Stream

2023

PROJECTS

TankTrack | Software Development Group Project

Developed a IOT based smart septic tank overflow detector mobile app to enhance septic tank management and prevent overflows.

Technologies : Flutter, Springboot, MongoDB, Firebase, IOT Devices

Bookstore API

Developed a RESTful API for managing customers, carts, and orders, including handling errors like missing fields, invalid data, and existing resources.

Technologies : Java, JAX-RS(Rest APIs), Postman

Library Management System | Backend Development Project

Built a secure RESTful backend with role-based access for managing books, user activity, borrowing/return workflows, and automated email alerts. (Personal Project)

Technologies : Java, Spring Boot, Spring Security, Hibernate, MySQL, JavaMailSender

Aquamarine | Web Development Group Project

Developed a website to raise awareness on marine pollution and promote sustainable fishing aligned with UN SDG 14.

Technologies : HTML, CSS, JavaScript

Refined Residences | Estate Agent Client-Side Web Application

Designed and Developed a React and Vite-powered property search platform with an intuitive, modern UI.

Technologies : React.js (Vite) and JSON , Figma

SKILLS

Technical Skills

- **Languages** : Python, Java, SQL
- **Frontend Development** : HTML, CSS, JavaScript, React, Vue.js, Bootstrap, Tailwind CSS
- **Backend**: Node.js, PHP
- **Database** : MySql, MongoDB
- **Frameworks & Libraries** : JavaFX, Java Swing, Spring, GWT, Spring MVC
- **UI Design** : Figma, Sketch
- **Tools & IDEs** : Visual Studio Code, Python IDLE, IntelliJ IDEA, Github, ClickUp, Vite, Postman

Soft Skills

- Innovative and Creative, Quick Learner, Communication, Team Work, Adaptability

INTERESTS

Java Development

Web Development

Full-Stack Projects

UI-UX Design

ACHIEVEMENTS

Participating to the CodeSprint X 2025

Participated in Cutting Edge 2025 | TankTrack Project

EXTRA-CURRICULAR ACTIVITIES

Member of IEEE student branch of IIT

Member of IIT Rotaract Club

Member of IET Volunteers
